

## ***U-Control Old Time Stunt Event***

- 1. Scale Models Only – Profile or Full Fuselage models are eligible. (All models will be judged as if they were profiles – side and top view only)***
- 2. No engine throttle control will be allowed. Electric models will fly with timer only. (Throttles can be wired open to be made unusable in flight)***
- 3. Model must do a minimum of 10 laps to record one official flight.***
- 4. 2 official flights will be recorded, with a limit of 3 attempts (Best flight to count)***
- 5. Models will be judged on the following point system:***
  - ***25 points for scale and realistic appearance (judged on ground)***
  - ***10 points for take-off (model must ROG)***
  - ***15 points for steadiness in flight***
  - ***15 points for wingover***
  - ***15 points for maneuverability***
  - ***20 points for landing***
  - ***100 Points Possible Total***
- 6. Contestant with the highest number of points in one flight will be the winner.***
- 7. The decision of the judges will be final***

***(A three-view drawing, and colour scheme information is recommended, but not mandatory. Static judging, however, will favour entries with complete documentation.)***
